- 9 Disposable Hair Head Cover
- 9 Safety Rubber Boots
- 8 Oxygen Machines
- 9 Hand Gel Sanitizer 200ml
- 9 Industrial Spray Disinfectant

StreamTease International Ltd., registered in Hong Kong under the number 1029709 and with its main operational offices counting 30 people in Shenzhen, China, certify that our company is a professional supplier of FMCGs arising from the COVID-19 outbreak. We have been in business since 2006, worked with over 750 factories and exported thousands of containers' commodities from China.

Regarding the immediate demand kindly note that under the current circumstances it is extremely difficult for buyers to negotiate pricing, payment terms, quantities and especially to make it in the production planning without privileged relationships. Additional certifications are required for factories from the PRC to export products. We do confidently have all the necessary resources and connections above to fulfill large orders, besides logistics regulations that can change often.

Besides, we work transparently between our customers and factories' prices and traditionally apply a margin to run the trading operation including: factory sourcing, relationships and payment coordination, quality control and various inspections as well as logistics. For Government based deals we let the transactions happen directly with the factory.

Last, I'm an American citizen born and raised in Paris, speaks fluent mandarin and lived in China for 10 years. Throughout 20 years of conducting various businesses we always ran things with utmost attention to detail and integrity.
